## Fullstack developer

### *1 year of experience*

I am an enthusiastic learner of full-stack programming and am seeking opportunities to improve my skills and experience in this field. I am passionate about programming and constantly seeking new ways to expand my knowledge. I am willing to work hard and learn from others to achieve my professional goals.

## Skills

- HTML 5
- CSS 3
- JavaScript
- PHP 5+
- MySQL
- Bootstrap

## Experience

### Tester Jr

Nov. 2022 - Present

#### BITAM

*I have experience working as a Jr. Tester and have been involved in specific projects for solution development in PHP. One of the requirements I worked on was developing visually appealing real-time information displays for the company's websites using Chart.js. To achieve this requirement, I utilized my knowledge of PHP and JavaScript to work with JSON data and create interactive charts. Additionally, I made use of responsive design techniques to ensure that the charts could adapt to different screen sizes and be easily viewed on any device. Through this project, I gained valuable experience in front-end development and learned how to effectively communicate with team members to achieve project goals.*

- PHP development
- JavaScript programming
- JSON data manipulation
- Chart.js library knowledge
- Front-end web development
- Responsive design techniques
- Project communication and collaboration
- Visual data representation
- Real-time data processing
- Information display optimization

# Education

## Full stack developer

JUL. 2022

FUNVAL

*I am a highly motivated and dedicated individual who has invested a significant amount of time and effort into developing my skills in web development. I pursued an intensive training program where I studied for more than 5 months, dedicating up to 12 hours a day to improve my skills in HTML, CSS, JavaScript, and Bootstrap. This program was designed to challenge me and measure my progress through 5 different levels, each culminating in a final project that put into practice the languages I had learned. Through this rigorous training, I developed a strong foundation in web development and gained the confidence to take on complex projects and tasks.*

- HTML coding
- CSS styling
- JavaScript programming
- Bootstrap framework proficiency
- Intensive training in web development
- Dedicated and hardworking attitude
- Strong foundational knowledge in web development
- Ability to work on complex projects and tasks
- Progress tracking and measurement
- Final project management and execution
